

What if You Could Manage Reports Electronically?

Digitize and automate report processing

Many organizations are still generating mountains of printed reports. What if your data was available in easy-to-use electronic files instead?

US businesses waste \$8 billion annually managing printed reports
- PwC

60% of businesses were affected by a print related data breach
- Techradar, 2019

24% believe they could benefit from turning print streams into searchable electronic documents.
- AIIM
